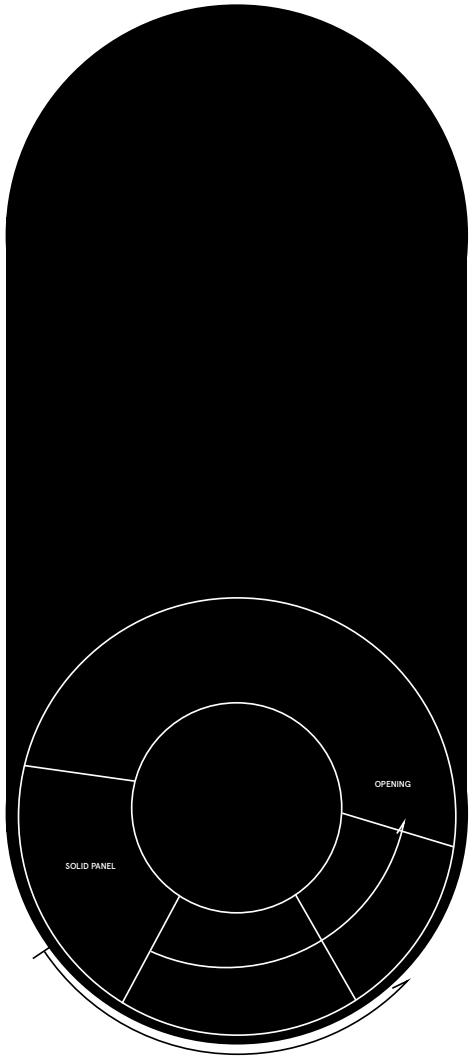
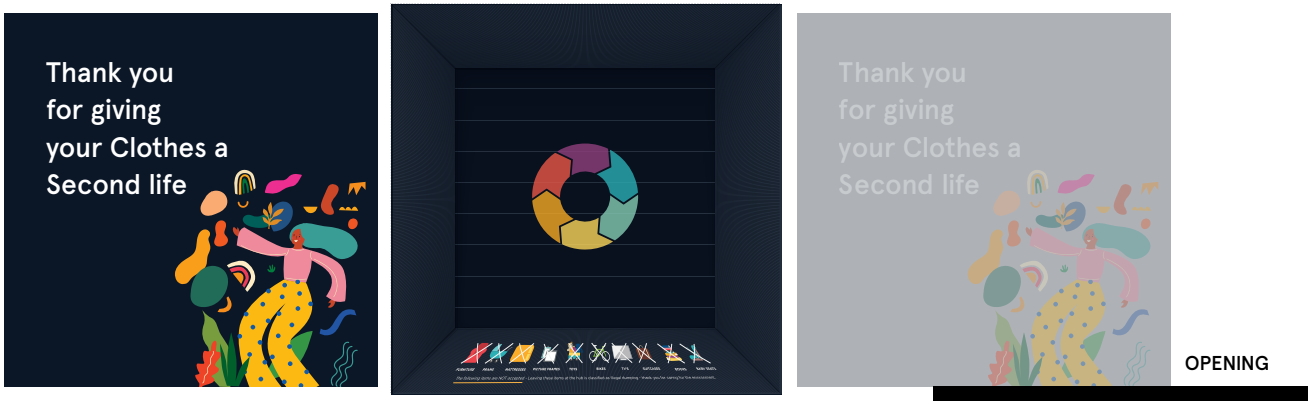
Give your
Clothes a
Second life

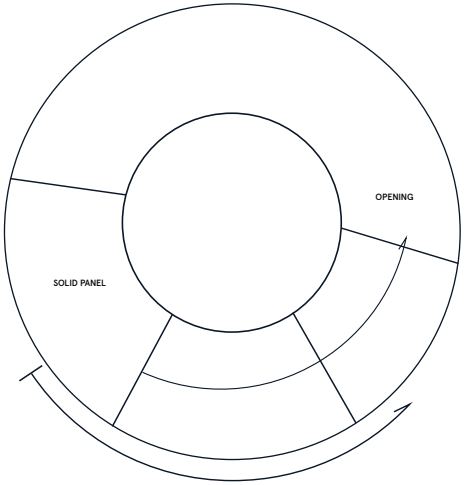




Solid panel with messaging pushes clothes/bag across the opening and allows them to drop into the hub

Things to consider

- Door must be higher to allow more items to build up
- Hub could be longer, instead of round, to hold more goods
- Have to work out inner workings, to ensure things don't get trapped
- Customised graphics/story for the hubs with a happy concept



SCRgroup

Neighborhood Mid-Range Hub

Possible options

- SLIDE Mechanism – Push/Pull – Innovation
- 3 dimensional Tshirt on top of hub to show it is clothing recycling
- Possiblity to light up Tshirt /assist at night for use
- Light at bottom to light up the hub
- Light in top of placement area /assist at night for use
- Graffiti option to reduce risk of vandalism
- Not accepted items inside hub, along with danger warning
